Family Support and Health Care Program

MISSION. The mission of the Charlotte Center for Legal Advocacy Family Support and Health Care Program is to ensure that low-income children, the elderly, disabled persons, immigrants, and their families have access to health care and public services.

CASE TYPES. The major problems or issues addressed by this program are access to:

- VA Disability
- Medicaid and Medicare
- Child Health Insurance Program (CHIP)
- Food Stamps
- Supplemental Security Income
- Social Security
- Mental health services
- Emergency assistance
- Childcare assistance
- Child support enforcement services
- Quality nursing and rest home care
- Work First Family Assistance
- Benefit diversion
- Employment supportive services

GOALS AND OBJECTIVES. This program focuses on the following four issues:

- 1) Access to quality health care for children and their parents in low and moderate-income families through Medicaid, the Children's Health Insurance Program, and private health insurance coverage.
- 2) Assisting families on welfare, formerly on welfare, or in danger of needing welfare, in becoming or remaining self-sufficient, by improving access to child support enforcement, quality childcare, higher education, training, transportation, treatment of substance abuse, Food Stamps, the Earned Income Tax Credit and other tax benefits, Medicaid, affordable housing, and other supportive services.
- 3) Improving health care and income support for the disabled and elderly poor, with a focus on issues involving Social Security, SSI, Medicaid, Medicare, and on improving mental health services, care in nursing and rest homes, access to community-based care, services to the HIV-positive population, and managed care.
- 4) Working closely with Charlotte Center for Legal Advocacy's Immigrant Justice Project to address the above issues as they impact the immigrant population in this region, including addressing language barriers and other barriers which particularly limit access of immigrants, non-English speaking citizens, and their children to public services and health care.

Program representation is designed both to obtain specific relief for the individuals and families who contact the program for assistance, and also to utilize systemic advocacy strategies to change the rules, procedures, and practices of federal and state agencies to ensure access to health care and public services for all affected persons. Measured outcomes will show the number of persons assisted and the dollar value of benefits or services obtained.
